## **DETAILED ACTION**

### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. In view of applicant's amendment filed 1-11-02, claims 1-4, drawn to a benzofuran-2-one compound, are subjected to the following election of species requirement. The generic compounds are classified in class 549, subclass 307.
2. Claims 1, 12, 13 and 15 are generic to a plurality of disclosed patentably distinct species comprising benzofuran-2-ones and products thereof. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
3. A telephone call was not made to request an oral election to the above restriction requirement, due to the complexity of the art involved.

Application/Control Number: 09/518,464

Art Unit: 1714

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. The inventions are distinct, each from the other because of the following reasons: The species require non-coextensive searches and are capable of supporting separate and distinct patents.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to K. Sanders whose telephone number is (703) 308-2435.
